100% Biodegradable and Compostable Sugarcane Containers

Material: They are made from plant fibers (sugarcane with 60% cellulose content or pure cellulose), they are 100% biodegradable and compostable (PULP).

Container Temperature Limits: resistant to temperatures from -10 to +120 degrees C.

Lid Temperature Limits: resistant to temperatures from -40 to +54 degrees C with the exception of the lids for the Hot2Go containers, which are microwave resistant.

Oven and microwave oven: all utensils in this series are suitable for oven and microwave oven (up to +120 °C), and the Hot2Go containers can be put in the microwave together with the lid, which lid has special holes for the steam that will develop when heating the container. The same applies to all PP lids marked HOT.

Cooling - Freezing: all utensils in the series are suitable for use in both the refrigerator and the freezer. (up to -10 °C),

Food preservation: in pulp containers food is kept extremely fresh for two days both for storage and transport. In laminated pulp, the time increases to six days!
