

## PRODUCT LIST 2025

### TAKE AWAY – DELIVERY PP containers for hot / reheated food

These containers have the following **characteristics**:

- **Material:** Fully recyclable PP, containing 30% less organic matter.
- **Cap - Lid Temperature Limits:** Resistant to temperatures from -18 to +100 degrees C.
- **Microwave:** All utensils in this range are suitable for microwave use (with their lids).
- **Caps - Lids:** They are made of PP and provide excellent waterproofing so that no leaks from salads and liquids can be observed.
- **All Fastpac lids are equipped with a vent hole to prevent moisture and contents from being completely visible, also the lids do not open when reheated in the microwave.**

The hole **allows the steam to release** without cooling the food.

- **The same lid can be applied to more than one container**, because many containers differ in height and have the same diameter.

								
	FOOD SAFE CONTACT	REUSABLE	MICROWAVEABLE	HEAT LAMP SAFE	DISHWASHER SAFE	REFRIGERATOR / FREEZER FRIENDLY	STACKABLE	TEMPERATURE
PP BLACK	✓	✓	✓	✓	✓	✓	✓	+120°C -18°C
PP CLEAR	✓	✓	✓	✓	✓	✓	✓	+120°C -18°C

#### Advantages:

- **Fastpac containers are hand washable**, so the end consumer can reuse them at will.
- Keep food **warm and fresh for a long time** from baking time.
- **30 containers and lids** are available in squares, rectangles and round shapes, from 1 to 3 compartments, ideal for all meals, from appetizers, potatoes, hot dishes to soups and full meals.

**Certification:** All utensils are qualified and **certified for food contact**.

**Use:** All containers can be **hand washed and reused by the end consumer**.
